### Oxford County United Parish

Embracing Albany, North Lovell, East Stoneham and the Waterfords. Pastoral Staff: Revs. W. L. Bull, B. F. Wentworth, A. C. Townsend

Rev. W. L. Bull was called away to attend a funeral in his former pastorate, The Aroostook Larger Parish, at Ashland and vicinity, last Sunday. This made necessary some last-minute rearrangements of the schedule in order for Rev. Bull to supply five preaching points, but it was accomplished. The Odd Fellows and Rebekahs attended church in a body at North Waterford. The road to Albany is still rough but now possible, and it is hoped that the services henceforth will not be so irregular, as they have had to be for several weeks.

Rev. B. F. Wentworth, Minister of Religious Education, is making plans to introduce an hour a week of religious instruction into the Albany common schools. Mr. Wentworth and several of the local 4-H leaders attended the Leaders' Conference at South Paris, last Saturday. They report that plans were there made for a County Field Day at some central place. Mr. Wentworth plans for a public installation of the leaders within the United Parish in the near future.

The Waterford Ladies' Circle served another dinner at the Morse cottage last Tuesday, after which the Congregational Parish held a business meeting. The fire-killed trees are being removed from the site of the burned church and community house, in anticipation that work on the new buildings will soon be begun.

The bi-monthly meeting of the Council is to be held in the South Waterford Grange Hall, Friday afternoon and evening. The speaker of the evening will be Rev. Rodney W. Boudry, the new Congregational State Superintendent. The Congregational Churches of the Parish are seeking to elect their delegates to the State Conference which is to be held at Augusta, next week. Mr. Bull is Vice President of the Conference and Mr. Townsend is Clerk, this being his twelfth year in that office. Mr. Bull is also a member of the Board of Directors. Each church in the state is entitled to be represented by its pastor and two lay delegates, while the larger churches may have a larger delegation.

### WATERFORD FLAT

Birthplace of Artemus Ward and Ten Miles N. W. from Norway

Edmund Douglass, who has spent the winter in Augusta, Georgia, where he has a fine position in a hotel, has returned home and will spend a month with his mother, Mrs. Lillian Morse, before going to Manchester, Vt., for the summer.

A Circle dinner was served at "Camp Rest Awhile" on Tuesday of last week. A fine dinner was served by the committee in charge, with Mrs. Helen Rice as chairman. The tables were filled and one table had to be re-set to accommodate a party of six from North Waterford. A business meeting of the Circle was held, followed by a social hour. Another Circle dinner will be served on Tuesday of this week.

Moria Lockwood is again in the hospital suffering from heart trouble.

There was a jolly party at the home of L. R. Boudry, on Friday evening, with two tables of bridge. Mrs. Blanche Tyler carried off the honors when the scores were counted. The hostesses, Mrs. Dora Rounds and Mrs. F. B. Rounds, served delicious refreshments, consisting of sandwiches, olives, cake, two kinds of ice cream and coffee. This party was held on the evening before the birthday of Mrs. Nellie Stone, and she was the guest of honor, and was presented with a beautiful birthday cake, with lighted candles. The cake was cut and passed around among the company, who pronounced it to be a most delicious cake. These bridge parties have been very pleasant affairs this winter.

The big trees which were injured by the community house fire, have all been cut down and several charges of dynamite have been used to remove the roots.

There was a dinner party at Stone Home on Saturday evening, in honor of the birthday of Mrs. Nellie Stone, with the following guests: Mr. and Mrs. C. B. Bailey, Bridgton; Miss Josephine Bailey, Gorham; Norman School; Miss Shirley Adams, Kittery, Me.; P. E. Kimball, Waterford. Two other guests who were invited were unable to attend. Mrs. Stone received several gifts, also cards and letters; one letter a long and interesting one from Miss Carrie Plummer, who is in California, describing an auto trip of over 1500 miles to the Grand Canyon, Death Valley, and other points of interest which Miss Plummer and Miss Gage have recently taken.

George Rice is plowing gardens in the village here.

H. Alton Bacon of Bryant's Pond was in town on a business trip, Monday.

The ice went out of the lake during the afternoon of April 26, and lots of people have tried the fishing. A few trout have been caught, but the weather is rather too cool for the trout to bite well. At this writing it seems as though the weather is cold enough to freeze the lake again. Spring is very slow in coming to us this year.

## NORWAY VICINITY

Joe Dubey is nursing a group of ulcers near one ankle. He is complaining some, but says the sores are getting well. The Maine Street cement has been cleared of dirt tracked in from intersecting roads and made safe and span for the street sweeper, who goes out daily in May. Ed Rich and Carl Ahonen swept Morse brook in East Waterford, Thursday night with no great success. Smells didn't appear to be on the brook. The top of this hard luck came the loss of an expensive flashlight that bounced off the running board somewhere between Geo. Stevens' place and Frost Corner, which was later found.

Fred Barnes, for years a resident of Norway, now located in Mechanic Falls, and making shoes, was here Saturday. He reports business on the increase and the future bright. On Friday night he plans to bring up a bunch of friends to the American Legion Minstrels and do the thing right. Fred has handled the curtains at this annual show every year, the break comes at this time.

A new water system is being installed at the fair grounds and replacing pipes that have been in use nearly forty years. The street main has been tapped near the automobile building and 2 inch pipes are laid to the Exhibition Hall and along Eathing House Square. A three-quarter inch pipe will supply the cattle sheds. Each building has a service shut off and a stand pipe on both floors in the exhibition hall for use in case of fire. This new system will prevent much trouble of the past when opening up for the fair.
